The effective date of the policy determines the applicable rate for the policy *and any endorsements to that policy*.

For example, with a policy that is effective 1-Jul-06, you should use the new rate of 0.1% for the policy and for any subsequent endorsements to that policy. With a policy that is effective 1-May-06, you will use the 0.3% stamping fee rate for the policy and for any subsequent endorsements to that policy – *regardless of the effective date of the endorsement*.
