Asst. Executive Director

Be advised that the *2008 Licensing & Surplus Lines Laws* book published by **The National Underwriter Company** lists the Illinois stamping fee rate incorrectly.

The **correct stamping fee rate** for Illinois remains at **0.1% (one-tenth of one percent)**, rounded to the nearest whole dollar.

The editors have corrected the online edition of the book, as well as the online surplus lines chart that is available to those who have purchased the book and to those who subscribe to the online edition.

Book users: for access to the online chart, see the first page of the introduction of the book, or page 379 (the introduction to the Surplus Lines section).
